

# The Impact of Trauma on the Individual and Collective Psyche

FRIDAY, MAY 12, 2017

7 P.M. - 9:30 P.M.

War, terrorism, gun violence, physical and sexual trauma, and domestic violence have a profound impact, not only on those who experience it directly, but also on their families, communities and descendants. Using a combination of brief video clips, presentation and audience discussion, we will explore the effects of violence on individuals and those they are connected to, and in its transmission over generations and through society. The film, "Now, After," produced and directed by Iraq Veteran filmmaker Kyle Hausmann-Stokes, will be highlighted and will provide a compelling and provocative 'inside-out' perspective on combat related PTSD and the potential for healing.

## The Trauma of Violence, The Violence of Trauma

FRIDAY, MAY 12, 2017

(above)

SATURDAY, MAY 13, 2017

9:30 A.M. - 4:30 P.M. (for licensed professionals)

The increased awareness of violence towards others, and associated fear of violence towards oneself, has an undeniable effect. Those who are directly affected are often devastated while, for all, the effects are disturbing and destabilizing. The experience of our American heroes, our active service members and veterans, and our children - those to whom the future will be entrusted - will be highlighted.
